

Victor Davies Ibiamu

Java Developer

Phone: +2348037752522 | Email: victoribiamu@gmail.com

LinkedIn: linkedin.com/in/victor-ibiamu

Summary

Experienced Java Developer with expertise in Java, Spring Boot, Hibernate, SQL database management, and backend API development. Proficient in Object-Oriented Programming (OOP), RESTful and SOAP web services, and financial technology applications. Adept at building scalable, high-performance applications in fintech and enterprise environments.

Experience

Java Developer | Christ City Global Outreach International

Nov 2022 - Jan 2025 | Abuja, FCT, Nigeria

- Developed and maintained backend applications using Java, Spring Boot, and Hibernate.
- Designed and optimized SQL queries in PostgreSQL and MySQL, ensuring database efficiency.
- Developed RESTful and SOAP APIs for secure data exchange and financial transactions.
- Implemented Object-Oriented Programming (OOP) principles, improving system maintainability.
- Integrated authentication mechanisms using JWT and OAuth2.
- Deployed and managed cloud-based applications on AWS and Azure.

Software Developer Intern | Hope Up Integrated Services

May 2020 - Sep 2022 | Rivers State, Nigeria

- Developed backend features using Java, Spring Boot, and SQL databases.
- Worked with RESTful APIs and integrated third-party services for fintech applications.
- Implemented unit testing and CI/CD automation to streamline deployment processes.
- Provided production support and troubleshooting for critical enterprise applications.

Education

B.Sc, Business and Economics | Sikkim Manipal University | 2018 - 2022

Web Programming with Python - CS50 | HarvardX | 2023 - 2024

Introduction to Blockchain and Web3 | HarvardX | 2024

Technical Skills

- Java, Spring Boot, Hibernate
- Object-Oriented Programming (OOP) Principles
- SQL, PostgreSQL, MySQL
- API Development (RESTful, SOAP)
- Microservices Architecture
- Authentication & Authorization (JWT, OAuth2)
- Git, CI/CD Pipelines, DevOps
- Cloud Deployment (AWS, Azure)
- Unit Testing, Integration Testing
- Fintech Application Development

Achievements

- Successfully built secure fintech applications using Java and SQL.
- Optimized database queries, reducing API response time by 30%.
- Implemented SOAP-based APIs for financial transaction processing.
- Developed CI/CD pipelines, improving deployment efficiency.
